Professional Experience

- May 2024–Present **Product Management Consultant (Freelance)**
- Led 0→1 launch, defined **design, roadmap, MVP**, and success KPIs for LokLearn (OTT for Tier 2/3 India)
 - Owned safety feature development and tracking for a privacy-first browsing tool at QikFox
- Jun 2022–May 2024 **Product Manager - Web API, O9 Solutions, Bengaluru**
- Led o9's AI-powered disaster management into API-first microservices. Obtaining **95%+ forecast accuracy and reducing response time by 50%** -by enabling LLM-based scenario planning and real-time risk alerts in multi-tier supply chains.
 - Partnered with Customer Success to incorporate user insights and balance trade-offs using an **empathy-first approach**. Bridged product and UX teams, converting feedback into **Figma prototypes, feature specs**, and finally to features, for O9 Platform.
 - Launched bug triaging system, reducing **customer escalations by 30%**.
 - Led "Platform Resiliency" project, improving SaaS stability and **cutting support tickets by 20%**.
- Dec 2021–May 2022 **Junior Product Manager, KYC Hub, Bengaluru**
- **Automated sales dashboards** and revamped Sandbox, boosting internal ops and client onboarding.
 - Handled end-to-end delivery: sprint planning, roadmap (ClickUp), and API testing (Postman).
- Dec 2019–Oct 2021 **RPA/AI Developer, Velocity IT, Bengaluru**
- Built and deployed 10+ bots using K2/MySQL, **boosting productivity by 40%**.
- Jun 2018–Nov 2019 **Junior RPA Developer, Servion, Chennai**
- Delivered enterprise bots in sync with testing and business teams.

Professional Development

- Jan 2024–Apr 2024 **Growth School PM CAP:** Highest scorer(98%) in the cohort with a capstone project; built KPIs, GTM strategy, and user research framework.
- Sep 2021–Dec 2021 **PM Nanodegree, Udacity:** Practiced design thinking, A/B testing, and hypothesis-driven development in live projects.

Projects

- Sep 2021–Dec 2021 **KPHealth:** Built a health app for Kaiser Permanente focused on sustainable habit-building.
- Aug 2023–Dec 2023 **Defi GPT:** Blockchain-based GPT platform integrating NFT APIs, SQL queries, and RAG systems for market insights.

Education

- 2014–2018 **B.Tech, Computer Science, Amity University, Noida**
